RELEVANT EXPERIENCE

Web Developer Owner/Self-Employed

2019–Present

San Diego, CA and Harrisburg, PA

Applied industry and technical expertise in conceptualizing and developing the following websites:

- **bagelloverscafe.eugeneilin.dev**
 - Improved design of an outdated website for a local cafe
 - Implemented CSS and JavaScript animations for enhanced user experience (UX)
 - Built attractive layout with CSS Grid and Flexbox
- **eugeneilin.com**
 - Devised a professional artist's website tailored to his specific needs
 - Designed attractive and minimalistic user interface (UI), wherein contact form sends data to Netlify
 - Boosted site's functionality by embedding YouTube, Facebook, and Instagram widgets
- **pavelandanna.com**
 - Enhanced client's productivity by 30% by creating a customized RSVP website utilizing Firebase objects for back-end to store data, encoded by guests into the form
 - Ensured dynamic responsive web design and cross-browser compatibility
 - Incorporated JavaScript object methods as well as jQuery animations in displaying photo content
- **eugeneilin.dev**
 - Developed and implemented personal portfolio website through custom design, wherein contact form sends data to Netlify
 - Displayed achievements in web project development using CSS grid
- **contact-access.herokuapp.com**
 - Set up MERN Stack contact base to create unique contacts for individual users, while searching through, editing, and deleting contacts
 - Created a register and log-in form for individual users implementing Express backend API that uses JSON Web Token for authentication
 - Held full accountability in implementing React animations and font awesome icons in app design
- **githubfinder.eugeneilin.dev**
 - Made use of advanced React Hooks and Context API to obtain and display GitHub user data in the UI
